PRINCIPAL'S INTRODUCTION

I extend a welcome to all students commencing their secondary study at Burnside State High School. Junior Secondary will provide you with the opportunity to build strong foundations for your future.

We offer a range of subjects covering a diverse range of interests. Our subject range, combined with excellent teachers, facilities and resources and a wide range of learning experiences, provides ample opportunity for every student to experience success and to develop multiple pathways to the future.

In Junior Secondary you must take responsibility for your own learning and it is also a time for strengthening your commitment to lifelong learning.

A lifelong learner is:

- A knowledgeable person with deep understanding
- A complex thinker
- An active investigator
- A responsive creator
- An effective communicator
- A participant in an interdependent world
- A reflective and self-directed learner.

At Burnside State High School we believe:

- Every student can learn and succeed
- Success breeds success

Our school's purpose is that every student will achieve the best possible educational outcome.

Burnside State High School will provide you with many opportunities to build the foundations to your future, but ultimately the responsibility for your success rests with you.

Junior Secondary will give you the opportunity to develop good personal organisation, self-discipline, good work and study habits so you can be very successful and achieve your goals. Set clear goals and be committed to working hard to achieve them.

I trust that you will enjoy the challenges of Junior Secondary and that you will reap the benefits for your future. Sound foundations in the Junior Secondary will see you make a smooth transition into the senior phase of learning. If we work together, you will gain that "competitive edge" that you need and find success. The school's core values of care, consideration and co-operation will provide you with the environment to achieve the very best you can.

"Smaller, Smarter, Safer". That's Burnside State High School.

Kerri Dunn
Principal

BURNSIDE STATE HIGH SCHOOL YEAR 8 CURRICULUM

Burnside State High School has a diverse range of subjects that can be studied in Years 7 to 12. This is in part a function of our size, but also a product of our commitment to meeting the learning needs of a diverse student population with different strengths, areas of interest and future aspirations.

The foundations of the school's academic curriculum which guide the teaching and learning at BSHS include:

- Teaching, Learning and Curriculum – Statement of Principles
- A common pedagogical framework Burnside Pedagogical Toolbox
- The use of ICTs to support and enhance student understanding
- The development of students' multi-literacies
- Higher order thinking and problem solving

In summary, we aim to create a curriculum structure that balances both student choice and our commitment to producing well-rounded individuals who participate well in broader society as young adults.

STRUCTURE OF THE SCHOOL DAY

- Burnside State High School operates four 70 minute lessons each day.
- Seven subjects are studied in any one semester.
- Each subject is timetabled for three 70 minute lessons each week except for Health and Physical Education which is two 70 minute lessons.

LEARNING AREAS

There are eight Learning Areas around which our Year 8 and 9 Curriculum is structured.

These Learning Areas are:

English, Languages, Mathematics, Science, Health and Physical Education, Technology, Humanities and Social Sciences, The Arts.

The subjects within each Learning Area in Years 7, 8 and 9 are as follows:

Learning Area	Subjects available in the Learning Area
English	English, Literacy
Health and Physical Education	Health and Physical education, Pursuit of Excellence Studies - Volleyball (optional)
Humanities and Social Science	History, Geography
Languages (LOTE)	Japanese, Indonesian
Mathematics	Mathematics, Numeracy
Science	Science
Technology	Industrial Technology and Design, Business Studies, Home Economics, ICT
The Arts	Drama, Music, Visual Art

Year 8 students study two (2) electives per semester

ASSESSMENT

A variety of different assessment instruments are used. In some subjects, students may be required to complete assignments as well as sit for tests. Each subject in this booklet indicates the type of assessment used.

The most important reason for assessment is for students to learn from their mistakes. Some assessment is also used to decide the level of achievement the student will be awarded for a subject. At Burnside State High School we call this summative assessment.

REPORTS

A Progress Report is issued to students two times each year and a semester report at the end of semester one and two. Parents are welcome to contact the school at any time to investigate the progress of their student.

Burnside State High School
Blaxland Road Burnside 4500
SCMC Box 5247 Nambour 4500
Phone: 07 5459 7333
www.burnsideshs.eq.edu.au

Student Name: _____ Year Level: 7 Semester _____
Roll Class: _____

The information contained in this report is a summary of your child's achievement in learning areas/subjects in the reporting period. Reports will be provided 2 times per year. The report is one of a number of strategies used by school to communicate with you throughout the year about your child's achievement, effort and behaviour. Parent teacher interviews are also offered to discuss your child's progress. The ratings awarded are for this reporting only.

Achievement Codes (Year 7)

- Your child's overall achievement in each learning area/subject studied over the reporting period is reported by ratings ranging as follows:
- A Evidence in a student's work typically demonstrates a very high level of knowledge and understanding of concepts, facts and procedures, and application of processes.
 - B Evidence in a student's work typically demonstrates a high level of knowledge and understanding of concepts, facts and procedures, and application of processes.
 - C Evidence in a student's work typically demonstrates a sound level of knowledge and understanding of concepts, facts and procedures, and application of processes.
 - D Evidence in a student's work typically demonstrates a limited level of knowledge and understanding of concepts, facts and procedures, and application of processes.
 - E Evidence in a student's work typically demonstrates a very limited knowledge and understanding of concepts, facts and procedures, and application of processes.
 - N Insufficient evidence to make a judgment.

National Literacy and Numeracy Tests for Years 3 and 9

When your child is in Years 3, 5, 7 or 9, you will receive an additional report describing your child's performance in literacy and numeracy. It will provide information on your child's performance compared to other students in Australia in reading, writing, punctuation and grammar.

Distribution of Achievement Codes
Upon request the school will provide you with information that clearly shows your child's achievement in the learning areas/subjects studied, in comparison to other children in the child's peer group at the school. This information will show you the number of students in the achievement ratings. This information is subject to the privacy of individual students being maintained.

Burnside State High School

Student Name: _____ Year Level: 7 Semester _____
Roll Class: _____

Page 1 of 5

Learning Area/Subject	Teacher	Achievement	Comments
SCIENCE	Ms S Hall	A	Will has a clear description and comprehensive knowledge and can offer a reasoned explanation of scientific knowledge and its application. He can identify and pose scientific questions, investigate, analyse and evaluate data, and communicate scientific language to communicate. Will demonstrate diligence and enthusiasm. He is consistent. Keep up the good work. Effort: Excellent Homework: Always Parent Interview: Not necessary
HUMANITIES AND SOCIAL SCIENCES	Mr K Cross	B	Will has thorough knowledge and understanding of key concepts and facts in Humanities. He demonstrated logical analysis and evaluation of evidence to draw well reasoned conclusions. Will used appropriate text conventions to communicate accurately. He was able to make informed reflections on investigations, values and learning. Will is a pleasure to teach. Effort: Very Good Homework: Usually Parent Interview: Not necessary
HEALTH AND PHYSICAL EDUCATION	Mr A Fearon	B	Will has demonstrated predominant control over his movement skills and applied these successfully during physical performance. He has comprehensively investigated health-related strategies and produced well-reasoned recommendations based upon his findings. He has consistently demonstrated excellent behaviour in this subject. Will has been enthusiastically involved in all aspects of Health and Physical Education this semester. Effort: Excellent Homework: Always Parent Interview: Not necessary
MUSIC	Mr S Roberts	B	Will has a sound standard of Music literacy and general knowledge, and has a high standard in practical skills. Participation in class activities has been consistently good. Behaviour in class is always of a very high standard. Effort: Excellent Homework: Usually Parent Interview: Not necessary

Student Name: _____ Year Level: 7 Semester 2 _____
Roll Class: _____

Learning Area/Subject	Teacher	Achievement	Comments
ENGLISH	Mr K Cross	B	Will has thorough knowledge and understanding of this semester's English content. He has demonstrated pertinent interpretation of purpose, audience, subject matter and text types. Will used purposeful and effective language elements such as text type, spelling and punctuation. His judgements and opinions about texts are reasoned. Will was able to make informed reflections on language choices and learning. Effort: Very Good Homework: Usually Parent Interview: Not necessary
Literacy Groups	Mrs M Exelby	B	Will is performing at age appropriate literacy level. He has demonstrated proficiency in most of the following areas: literal and inferential skills, reading for information, writing skills, following sequenced instructions, analysing contradictions, learning information. Behaviour in class is of a good standard. Will participates well in class discussions. Effort: Very Good Homework: Usually Parent Interview: Not necessary
MATHEMATICS	Ms S Hall	A	Will consistently demonstrates accurate and efficient recall and use of facts, definitions, technologies and procedures to solve a wide range of problems. He is able to identify and apply mathematical problem-solving strategies to investigate and solve a wide range of mathematical situations. Will is a keen and enthusiastic student. He is consistently courteous and well behaved. Well done! Effort: Excellent Homework: Always Parent Interview: Not necessary
Numeracy Groups	Ms S Hall	A	Will has demonstrated a very high level of success with the numeracy program. A high level of initiative and motivation to work independently is shown. Will is a pleasure to teach. Effort: Excellent Homework: Always Parent Interview: Not necessary

Horizons Program

Description:	The Horizons Program provides students with one on one access to a state of the art computer. Students who participate in the Horizons computer Program will have sole use and 24/7 access to a computer device. The Horizons Program is offered to students who have shown an interest in using technology and an aptitude for this type of learning in the classroom. Students will use technology intensively in their core subjects of English, Humanities, Mathematics and Science. The use of technology is incorporated into many of the elective subjects as appropriate.
Prerequisites:	Candidates and their families complete an interview in which students demonstrate their suitability for the Program. There is a cost associated with the Program.
Learning Experiences:	Each device is fitted with an approved school image which enables student access to the Burnside State High School network. This allows for students to be immersed in an intensive digital environment and creates an extension of curriculum opportunities. The Program provides a different way of learning traditional curriculum that emphasises technology, its understanding and its responsible use. The computer device is a powerful tool to engage students in learning, but certainly is not the only learning tool engaging students. Hands on activities, pen and paper work and writing skills will still be an essential part of the Horizon student's day.
Assessment:	Students are participants in the National curriculum framework, however teaching and learning as well as assessment is tailored to the digital classroom environment. Assessment techniques will include extensive usage of digital media.
Career Pathways:	The Horizons Program is not specifically designed to meet the needs of students who wish to enter computing fields, although it may be helpful for these aspirants. The rationale of the Program is to prepare <u>all</u> students to develop knowledge, skills, practices and attitudes necessary to be active citizens in the C21st. Our goal is to produce engaged, robust citizens and life-long learners capable of being able to control and use global technologies.
Pathway to Senior Subjects:	The Horizons Program will enhance student's technology skills and would be a valuable addition to the skills and processes required in all senior subjects.

Please note that the Horizons classroom is a digital environment and as such students are required to utilise a laptop computer at school and at home. The student is required to commit to a payment plan of \$1,200.00 per year over a three (3) year period. Students must also have access to the internet at home.

Special Education Program

Code:	SEP
Description:	<p>Burnside State High School is committed to achieving the highest outcomes for students with disabilities. The Special Education Program (SEP) provides specialised and individual educational programs for students with significant support needs which may include Autistic Spectrum Disorder, Intellectual Disability, Speech Language Impairment and/or a Physical, Hearing or Visual Impairment.</p> <ul style="list-style-type: none"> • We work as a team with families, teachers, specialists and students to identify strengths and put into action, a plan based on these capabilities. • We create the right environment, atmosphere and attitude for students with disabilities to develop and reach their fullest potential. • Teachers are committed to fully understanding the learning, social and physical needs of all students. They do this by taking the time to get to know the student, talking to families and enquiring into best practice from support workers and experts in the field. • It's a collaborative effort and one that pays off! We collaborate with families to identify the strengths of students by gaining the knowledge of those who know them best. When a student is surrounded by people who believe in them and their abilities, they strive to fulfill these expectations. • We create an environment that provides students with ongoing opportunities to learn, share, and engage.
Education Adjustment Profile:	All our students have a range of educational support needs and have an Education Adjustment Profile (EAP) to identify the adjustments that the school is making for the student, relevant to their disability. Adjustments are made in the following areas, where appropriate: curriculum, communication, social participation, emotional well-being, health and personal care, safety and learning environment access.
Personalised Learning Plan:	Each student is appointed a case manager who assists students and their parents/guardians to manage the disability. The case manager organises a Personalised Learning Plan and liaises with parent/guardians, teachers and specialists regarding student management and modification of assessment. The case manager also assists HOSES with monitoring of teacher aide support and providing information and expertise re managing the disability.
Support Plan:	Some students have a Support Plan which may comprise of a combination of inclusive, modified and alternate processes to meet their individual education and learning goals. An Individual Curriculum Plan (ICP) is for students who are not achieving at their grade level.
Structure/Learning Experiences:	All programs are flexible and change to meet individual needs. We include students in mainstream classes and provide alternative programs for those who are not suited to full or partial mainstream learning. A range of adjustments are used to support students with disabilities in mainstream classes. Personal needs of students are catered for through adjustments in their learning and assessment.

Learning Support Program

<p>Aim:</p>	<p>To engender academic success in all students who attend the Learning Support Unit by:</p> <ul style="list-style-type: none"> • Supporting growth in reading comprehension, spelling and writing skills identified in low level learners • Supporting growth in numeracy skills identified in low level learners • Identifying, accelerating and differentiating curriculum to maximise student learning outcomes and experiences • Supporting class teachers' ability to differentiate the curriculum and adjust assessments to cater for individual needs in the classroom <p>Students with <i>learning difficulties</i> are supported through a whole school intervention approach which focuses on our school community providing intensive intervention based on State standards and school-based expectations.</p> <p>Intensive intervention involves classroom teachers, Learning Support teachers and teacher aides working together to ensure curriculum design, teaching practices and quality assessment is provided to students who are experiencing difficulty with the literacy and numeracy demands of the curriculum.</p> <p>Students with learning difficulties participate in classes with their same aged peers and have access to 'reasonable adjustments' to the curriculum in line with Education Queensland policy. Reasonable adjustments for students with learning difficulties are planned and negotiated as early as possible so that students can be provided with appropriate support in order to commence, participate and complete course study requirements.</p> <p>Each case must be considered on an individual basis and decisions reached through consultation. This consultation process involves the student and/or parent/guardian, class teachers and Learning Support teachers.</p>
<p>Model:</p>	<p>A whole school intervention approach which focuses on school communities providing evidence based instruction, continuous data monitoring, timely identification of struggling students and use of response data to change the intensity or type of intervention. The whole school approach focuses on all students who do not meet national, state and school based literacy and numeracy achievement standards and expectations.</p> <p>Strategies for support include:</p> <ul style="list-style-type: none"> • Use of NAPLAN and state standards as well as school-based expectations in determining the need for intervention. • Use of classroom based assessment tools in targeting areas for intervention. • Provision of support to teachers and teacher aides in making intervention decisions. • Use of student achievement data to measure the effectiveness of intervention. • Working collaboratively with HOSES to coordinate human and physical resources. <p>Conceptualising literacy and numeracy intervention within three layers (whole school intervention, targeted group interventions, intensive interventions).</p>

English

Code:	ENG
Description:	English focuses on developing skills across areas of; reading, writing, speaking, listening and viewing. The aim is to have students use their imagination, creativity and world views to interpret and construct texts that share their ideas, persuade audiences and address issues and events in their own lives and communities. The course focuses on enhancing students' critical abilities and stimulating students' appreciation of language and expression. All of the units are based around the Australian National Curriculum which was launched in 2012 across Queensland.
Learning Experiences:	<p>There are four main units of study as outlined below:</p> <p>Personal Stories This unit encourages students to examine how individuals are represented in a range of texts. Students examine and experiment with text structures, language features, and visual forms to create a personal narrative that represents their own identity.</p> <p>Loving Literature A love of reading is a vital tool in the development of students' ability across a range of subjects. The intention of this unit is to encourage enjoyment of reading and develop a deep understanding of novel themes surrounding personal, community or global issues. Students analyse the different themes that are explored in novels and texts.</p> <p>Playing Up! In this unit students continue their study of drama by focusing their attention on the writing, reading and presentation of plays from a range of cultures.</p> <p>At The Movies Students will explore the wonderful world of cinema.</p> <p>Note: The curriculum in the Horizons Program, whilst still following the same pedagogical aspects, will be slightly different in order to cater to the direct aims of this program.</p>
Assessment:	Assessment consists of a variety of written and spoken pieces, under a range of conditions. Generally there are four or five pieces of assessment per semester, including both written and spoken tasks. At least two pieces are undertaken under test conditions.
Career Pathways:	The study of English will be an asset in all career pathways. Specific English related careers include the following work areas: advertising, marketing, education, media, politics, writing, publishing and public relations.

Mathematics

Code:	MAT
Description:	<p>Learning mathematics creates opportunities for, and enriches the lives of all of our students.</p> <p>The Australian Mathematics Curriculum provides students with essential mathematical skills and knowledge in Number and Algebra, Measurement and Geometry, and Statistics and Probability.</p> <p>It develops the numeracy capabilities that all students need in their personal, work and civic life, and provides the fundamentals on which mathematical specialties and professional applications of mathematics are built.</p>
Learning Experiences:	<p>By the end of Year 8, students use efficient mental and written strategies to carry out the four operations with integers. They round decimals and solve problems involving percentages. Students recognise the index laws and apply them to whole numbers and variables. They simplify a variety of algebraic expressions and solve linear equations. They graph linear relationships on the Cartesian plane. They solve a range of everyday problems involving rates and ratios. Students determine complementary events and use the sum of probabilities to solve problems. They understand the challenges of collecting representative data and the effect on medians and means of outliers. Students choose appropriate units of measurement for area and volume and solve problems. They recognise the features of circles and solve problems involving circumference and area. Students identify conditions for congruence of plane shapes and establish properties of quadrilaterals and solve related numerical problems. They solve problems involving time duration.</p> <p>Students study the following topics:</p> <ul style="list-style-type: none"> • Number and place value • Real numbers • Money and financial mathematics • Patterns and algebra • Linear and non-linear relationships • Using units of measurement • Geometric reasoning • Chance • Data representation and interpretation
Assessment:	<p>Students will be assessed in the following criteria:</p> <ul style="list-style-type: none"> • Understanding • Fluency • Problem Solving • Reasoning <p>Assessment will generally be done via assignments/investigations and end of unit tests.</p>
Career Pathways:	Mathematics will play a role in any future direction the student may choose.

Science

Code:	SCI
Description:	Science allows students to explore both the theoretical and practical aspects of the world of science. Science is used to enable students to reach deeper understanding of the world around them.
Learning Experiences:	<p>This course is arranged around the Australian Curriculum of Science which has 3 strands - Science Understanding, Science Inquiry Skills and Science as a Human Endeavour.</p> <p>Students will study 6 subjects over the course of one year and include; Getting Started, Matter, Rocks, Energy For My Lifestyle, Building Blocks of Life, Reproduction.</p> <p>By the end of Year 8, science students should be able to:</p> <ul style="list-style-type: none"> • Investigate questions to reach conclusions consistent with scientific knowledge • Describe how science inquiry contributes to an understanding of the world • Describe the function and structure of two different types of cell • Compare physical and chemical changes and describe differences between substances using particle theory • Describe examples of how different forms of energy cause change in simple systems • Describe a situation where scientific knowledge has been used to solve a real-world problem.
Assessment:	The students will do six assessment items in Year 8. These will take the form of written tests and experimental investigations followed by a written report.
Career Pathways:	Science will play a role in any future direction the student may choose.

Humanities: History, Geography and Civics

Code:	HUM
Description:	<p>Humanities is a study of the Earth and its people. In Year 8 the study of Humanities will be divided into three areas:</p> <ul style="list-style-type: none"> • History: the study of the past • Geography: the study of the Earth • Civics: the study of the Government <p>Each area has been aligned with the national curriculum.</p> <p>Note: The curriculum in the Horizons Program, whilst still following the same pedagogical aspects, will be slightly different in order to cater the direct aims of this program.</p>
Learning Experiences:	<p>The course is organised around a series of themes or broad areas of study.</p> <p>Desserts, Dune and Deltas (Geography) Students will study the geography of Australia.</p> <p>Medieval Madness (History) Students will take a step back in time to discover the world of knights, lords, castles and the Black Plague.</p> <p>Australian Freedoms (Civics) Students will study the government and geography of Australia.</p> <p>Angkor Wat (History) Students are introduced to the ancient world of the Khmer.</p> <p>Movers and Shakers (Geography) Students will look at human patterns of urbanisation and migration (where people live and why they live there).</p>
Assessment:	<p>Students will be assessed in each of four categories of assessment: test essays in response to sources, research assignments in response to inquiry questions, multimodal presentations that may include non-written and visual presentations such as video, PowerPoint or interactive CD-ROM materials, as well as short response and response to stimulus tests.</p>
Career Pathways:	<p>Students with an interest in Humanities have found themselves working in diverse fields including; archaeology, diplomatic service, advertising, cultural heritage, the mines, environmental protection, engineering, museums and libraries, tourism, research, education and government.</p>

Business Studies and Information and Communication Technologies

Code:	BST
Description:	<p>Students have the opportunity to further develop their understanding of business concepts by exploring the ways markets – including traditional Aboriginal and Torres Strait Islander markets – work within Australia, the participants in the market system and the ways they may influence the market’s operation. The rights, responsibilities and opportunities that arise for businesses, consumers and governments are considered along with the influences on the ways individuals work now and into the future.</p> <p>Students will draw on their abilities and improve their ICT skills in the preparation of documents and using research skills through the investigation of business issues.</p>
Learning Experiences:	<p>During this elective, students will develop their previous knowledge, understanding and skills in the areas of:</p> <ul style="list-style-type: none"> • Why are markets needed, and why are governments involved? • Why do consumers and businesses have both rights and responsibilities? • What may affect the ways people work now and in the future? • How do different businesses respond to opportunities in the market? • ICT skills
Assessment:	<p>Business Knowledge and Understanding To assess students’ understanding of what has been covered in the course, students will:</p> <ul style="list-style-type: none"> • Submit a portfolio of classwork <p>Investigating, Designing, Producing, Evaluating, Reflecting Students will investigate issues and use relevant software and the internet to create:</p> <ul style="list-style-type: none"> • An analytical report – roles and responsibilities of participants in the workplace • A multimodal using PowerPoint – a business case study
Career Pathways:	Students who enjoy this course should consider choosing Business and Tourism and/or ICT electives in future year levels.

Industrial Technology and Design

Code:	MAN
Description:	The focus of Industrial Technology and Design in Year 8 is to develop the students' knowledge and skills necessary to draw, manipulate materials, tools and equipment to produce simple projects. Safety also plays a key role with regard to working techniques and behaviour in the workshop environment. The course is one term long and the students are involved in three units.
Learning Experiences:	<p>Pencil Case (Wood and Plastic) Marking Out Procedures, Cutting Out Procedures, Joining and Assembly Procedures, Finishing procedures.</p> <p>BBQ Flip (Metal) Marking Out Procedures, Cutting Out Procedures, Joining and Assembly Procedures, Finishing procedures.</p> <p>Computer Aided Drafting Sketching/Drawing by hand, Using the Inventor Program on the Computer Aided Drafting Package, Third Angle Projection, and Pictorial Views.</p>
Assessment:	For Units One and Two the students will be assessed on their practical work, workbook and a theory test. For Unit Three the students will be assessed on their drawing folio.
Career Pathways:	<p>In Year 8, Industrial Technology and Design readies students for the other courses in Years 9, 10, 11 and 12. This will provide students with the knowledge and skills towards the following careers:</p> <ul style="list-style-type: none"> • Trades, apprenticeships and traineeships in engineering: Metal fabrication, fitting and turning, boiler making, panel beating, machining, designing and mining. • Trades, apprenticeships and traineeships in construction: Carpentry, building, joinery, cabinetmaking, furnishing, machining, designing, picture framing and forestry.

Home Economics

Code:	HEC
Description:	The focus of Home Economics in Year 8 is to develop the students' knowledge and skills necessary to manipulate materials, tools and equipment to produce a simple textile item and cook nutritional recipes.
Prerequisites:	Students must provide their own ingredients, fabric, buttons, zips etc.
Learning Experiences:	<p>During this unit the students will be exposed to:</p> <ul style="list-style-type: none"> • Knowledge on nutritional information • Practical skills in preparing recipes that develop basic skills • Hygiene and safety in the kitchen • Basic fabric and textile knowledge • Practical sewing skills e.g. boxer shorts or apron
Assessment:	<p>Students will be required to participate in the following assessment techniques:</p> <ul style="list-style-type: none"> • Supervised written assessment • Written assignments • Practical projects
Career Pathways:	<p>This course provides students with the knowledge and skills for Year 9 Home Economics and Year 9 Food Studies.</p> <p>Home Economics provides a pathway to:</p> <ul style="list-style-type: none"> • Trades, apprenticeships and traineeships in hospitality • Hospitality management • Fashion design • Food technologies • Nutrition related careers • Teaching • Early childhood careers

Food Studies

Code:	FOS
Description:	The focus of Food Studies in Year 8 is to develop the students' knowledge and skills necessary to manipulate materials, tools and equipment to prepare food. Students will work in teams and individually in the kitchen and focus on basic food preparation using a variety of food.
Prerequisites:	Students must provide their own ingredients.
Learning Experiences:	<p>During this unit the students will be exposed to:</p> <ul style="list-style-type: none"> • Knowledge and science of cookery • Practical skills focussing on basic food preparation and cookery methods • Hygiene and safety in the kitchen • Food presentation • Cookery challenges e.g. mystery box
Assessment:	<p>Students will be required to participate in the following assessment techniques:</p> <ul style="list-style-type: none"> • Supervised written assessment • Written assignments • Practical projects
Career Pathways:	<p>This course provides students with the knowledge and skills for Year 9 Home Economics and Year 9 Food Studies.</p> <p>Food Studies provides a pathway to:</p> <ul style="list-style-type: none"> • Trades, apprenticeships and traineeships in hospitality • Hospitality management • Food technologies • Nutrition related careers • Teaching

Music

Code:	MUS
Description:	<p>Music has many attributes that help in the development of our creative, academic and social development. Students will be given the opportunity to gain skills in various areas of music. These will include:</p> <ul style="list-style-type: none"> • Playing musical instruments • Critical listening • Music performance • Historical aspects of music • Music technology • Musical elements
Learning Experiences:	<p>During this elective, students will develop various skills in the following areas.</p> <p>Playing Musical Instruments Learn basic guitar and keyboard skills</p> <p>Critical Listening Investigate various genres of music through listening and using the elements of music</p> <p>Historical Aspects of Music A brief journey through the history of music from the 1950's to present day plus a look at the main periods in music history</p> <p>Music Technology A brief look at the latest technologies available to the modern musician</p>
Assessment:	<p>Assessment will include:</p> <ul style="list-style-type: none"> • Guitar test • Keyboard test • Listening test • Assignment • Various comprehension activities • Recording performance
Career Pathways:	<p>Composer, performer, classroom music teacher, private instrumental teacher, sound engineer (live sound), studio engineer, artistic administrator, music journalist, musicologist</p>

Japanese

Code:	JAP
Description:	<p>Japanese is an exciting and challenging language with a rich and diverse culture filled with incredible customs and history.</p> <p>By studying Japanese students will be able to:</p> <ul style="list-style-type: none"> • Engage with the global community • Widen their cultural understanding and experiences • Develop new perspectives and opportunities • Gain a competitive edge in the job market • Think about travelling to Japan for first hand experiences
Learning Experiences:	<p>A range of learning experiences across the four Language Macroskills of Listening, Speaking, Reading and Writing are applied to develop students' skills in using Japanese language in realistic situation.</p> <p>Extended topics include Family, School Life, Daily Life, Leisure Time and Celebrations.</p> <p>Intercultural competence is also enriched by the study of Culture, History and Social elements of Japan. Extended topics include Traditional and Modern Sports – Nihon Style, and Cultural Celebrations in Nihon.</p> <p>Students are also encouraged to host a Japanese visitor from one of the study tours that visit our school and maintain an e-pal.</p>
Assessment:	<p>The student's ability to communicate in Japanese and their cultural, historical and social knowledge of Japan is assessed.</p> <p>All elements of the learning experiences are assessed each term focussing on the four Language Macroskills of Listening, Speaking, Reading and Writing. Cultural, historical and social knowledge is assessed by mini assignments, tests and practical activities.</p>
Career Pathways:	International trade, banking and finance, mining, translating and interpreting, tourism, diplomacy, media and education.

Indonesian

Code:	IND
Description:	<p>Indonesia is an archipelago comprising approximately 17,508 islands. It has an exciting and fascinating culture. Indonesia is one of the largest and most diverse countries in the world. With over 220 million people it is of great environmental, cultural, political, and economic interest to the countries in the Asia Pacific region.</p> <p>Students in Year 8 will have the opportunity to discover the language and culture of our close neighbours.</p> <p>There are many great social and cultural benefits to be had from broadening and deepening our people-to-people links across the region. Students will develop the skills and understanding needed to be successful, well-rounded citizens in our ever-changing world. They will also become bi-lingual, and in doing so will learn more about their first language.</p>
Learning Experiences:	<p>During the unit, 'Tentang Saya' students will study topics including Indonesian culture, language and ICT skills. Students will learn the language and how to communicate with others about themselves in Indonesian across various mediums.</p>
Assessment:	<p>Students will be assessed through comprehension and composing tasks on all four macro skills:</p> <ul style="list-style-type: none"> • Listening • Reading • Writing • Speaking
Career Pathways:	<p>The study of Indonesian will be an asset in the following career pathways: law, environmental science, engineering, finance, journalism, mining, translating, tourism, diplomacy, media and education</p>

Drama

Code:	DRA
Description:	<p>Drama is an art form that explores human conflict and tension. It generally takes the form of a story presented to an audience through dialogue and action. The story is conveyed using the elements of the theatre: acting, costumes, props, scenery, lighting, music and sound.</p> <p>Drama has an emotional and intellectual impact on both the participants and audience members. It holds up a mirror for us to examine ourselves, deepening our understanding of human motivation and behaviour. It broadens our perspective through stories that portray life from different points of views, culture and time periods. Drama allows students to safely experiment with self-expression and gain self-confidence.</p> <p>Drama education uses the art form of drama as an educational pedagogy for students of all ages. It incorporates elements of the actor’s training to facilitate the students’ physical, social, emotional, and cognitive development. It is a multisensory, kinaesthetic mode of learning used to increase awareness of self, improve clarity, creativity, and communication, and to deepen understanding of social and human behaviours.</p>
Learning Experiences:	<p>Over the course of the drama program, students will explore and gain experience in the various roles of the actor, director, writer, designer, and audience member. They will engage with a variety of dramatic styles such as physical theatre, collage drama, melodrama and associated conventions. Drama education encompasses related disciplines and art forms such as pantomime, clowning, storytelling, melodrama, puppetry, improvisation, mask theatre, public speaking, playwriting, directing, and play productions.</p> <p>Learning experiences will include: Elements of drama, dramatic conventions and forms – such as role-play, audience interaction, character development, physical theatre workshops, script deconstruction, and stagecraft. Students will demonstrate their understanding of dramatic elements, conventions and techniques through their involvement in script writing, improvisational scenarios, and deconstruction of peer performances as well as ongoing reflection upon their own creative process and performances.</p>
Assessment:	<ul style="list-style-type: none"> • Forming: Students will devise scenes as part of an ensemble for a larger performance. • Presenting: Students will perform scripted and collaboratively devised theatre across a range of theatrical styles. • Responding: Students will deconstruct and critique peer performances and critically reflect upon their own performing and devising process.
Career Pathways:	<p>Actor (stage, film, television), Arts Administrator, Choreographer, Community Artist, Costume Designer, Dancer, Dance/Drama Teacher, Director, Drama Therapist, Dramaturge, Film Editor, Lighting Designer, Lighting Technician, Playwright, Producer, Set Designer, Singer, Sound Technician, Speech Pathologist, Stage Manager, Stunt Performer, Presenter, Theatre Critic, Voice Coach, Game Designer, Editor, Journalist, Lawyer, Musician, Production Manager, Radio Announcer, Biomechanical Animation Specialist</p>

Visual Art

Code:	ART
Description:	Students through their study of visual art will be involved in the making, viewing and appraising of artworks. Through their engagement with both two-dimensional and three-dimensional art forms, students will recognise the importance of the visual components of their world.
Learning Experiences:	<p>Students will manipulate visual arts elements, concepts and processes in both two dimensional and three dimensional forms. Images and objects will be expressed through:</p> <ul style="list-style-type: none"> • Researching ideas, considering social and cultural issues. • Designing and visually documenting ideas. • Practising making art through a variety of media. <p>Students will experience “hands on” making activities to design and produce a number of art works as well as be involved in the theoretical components of Art theory.</p>
Assessment:	<p>Assessment tasks will be developed from a wide range of visual arts styles and mediums.</p> <p>Students are assessed in two (2) areas:</p> <ul style="list-style-type: none"> • Practical portfolios • Theory responses
Career Pathways:	<p>Studying Visual Art can take you into tertiary Visual Art/Design courses, industry training, training at TAFE or university level or straight into visual arts/design job with on-site training. Many career pathways outside the obvious artist, graphic designer value the skills learnt in Visual Arts. Any career path that requires you to be creative and question the environment around you benefits from skills learnt in Visual Arts.</p> <p>Possible careers: animator, illustrator, web designer, graphic designer, artistic director, photographer, reviewer/critic, interior designer, hair dresser, landscape architect, industrial designer, film and television, textile designer, sign maker, jeweller, artist/craftsperson, potter, screen printer, cartoonist</p>

Health and Physical Education

Code:	HPE
Description:	Through their involvement in the HPE Key Learning Area, students will develop the knowledge, skills, processes and dispositions to promote health and wellbeing, actively engage in physical activity and enhance personal development.
Learning Experiences:	Learning experiences to be undertaken will be designed to enhance learning within the following Units: <ul style="list-style-type: none">• Volleyball• Fitness Profiling• Healthy Lifestyles• Touch Football• Basketball• Athletics• Soccer• Ultimate Disc• Badminton• Mental Health
Assessment:	Assessment techniques will include: <ul style="list-style-type: none">• Written exams• Assignments• Project completion• Observed physical performance

Pursuit of Excellence Studies: Volleyball

Code:	PESV
Description:	<p>The creation of the Pursuit of Excellence Studies: Volleyball course in 2003 has brought volleyball into the mainstream curriculum rather than have it operate solely as an extra curricula element within the school (which it has been since 1991). This has given students the opportunity to pursue Sporting Excellence within a school environment.</p> <p>Through involvement in the Pursuit of Excellence Studies: Volleyball program, students will develop a strong set of values and virtues such as self-belief, discipline, leadership, responsibility, confidence, commitment, loyalty, integrity, courage and the ability to work as a team member. High expectation in each of these areas is the foundation of the Pursuit of Excellence Studies: Volleyball program.</p>
Prerequisites:	All Year 8 students will have the opportunity to apply and then trial for a place in the Year 8 Pursuit of Excellence Studies: Volleyball class toward the end of Term 2. For successful applicants the program begins at the start of Semester 2.
Learning Experiences:	<p>Learning experiences to be undertaken will be designed to enhance learning within the following Units:</p> <ul style="list-style-type: none"> • Introduction to Volleyball • Volleyball Skills 1 • Fitness for Volleyball 1
Assessment:	Assessment involves observation of physical performance as well as written exams, assignment activities and booklet completion.
Significant Recent Results:	<ul style="list-style-type: none"> • Gold Medal Open Girls Div. 1 - QVSC 2012 • Bronze Medal Senior Boys Honours - QVSC 2012 • Bronze Medal Youth Boys Div. 1 - QVSC 2012 • Silver Medal Intermediate Girls Div. 1 - QVSC 2012 • Gold Medal Junior Girls Div. 1 - QVSC 2012 • Gold Medal Youth Girls Div. 2 - QVSC 2012 • Gold Medal Youth Girls Div. 2 - AVSC 2012 • Silver Medal Youth Boys Div. 1 - AVSC 2012 • 15 x Sunshine Coast Regional Representative players - 2013 • 2 Queensland Representatives and one Australian Rep. – 2013 • Gold Medal Senior Girls Div. 1 – QVSC 2013 • Bronze Medal Youth Girls Div. 2 – QVSC 2013 • Gold Medal Junior Girls Div. 1 – QVSC 2013 • Gold Medal Intermediate Girls Div. 1 – QVSC 2013 • Silver Medal Intermediate Girls Div. 2 – AVSC 2013 • Gold Medal Junior Boys Div. 1 – AVSC 2013 • Gold Medal Open Boys Div. 2 – AVSC 2013 • Sunshine Coast Junior, Senior and Overall Champion School – 2014

HOMWORK

INTRODUCTION

We believe that regular homework and home study are valuable aspects of the learning process:

1. Building confidence and success in subjects.
2. Re-enforcing class work.
3. Motivating students to achieve and to become more independent learners.
4. Developing regular study habits.
5. Providing information about each student's progress.

WHAT IS HOMEWORK?

Homework is set by teachers for students to practise work already dealt with in class or for them to cover a certain section of the course on their own.

WHAT IS HOME STUDY?

Home Study is set by the students themselves. It is in this area that the students show responsibility by developing good habits. Developing consistent home study habits will pay off in the long run.

TYPES OF HOMEWORK

1. The amount of homework set in each subject will vary according to age and learning needs.
2. While the amount of homework will vary according to age and learning needs, every student will be assigned some homework regularly, with an emphasis on the curriculum in Years 7, 8, 9 and 10.
3. Different subjects often have the need to set different types of homework, and at different intervals. Depending on the theoretical or practical nature of the unit or subject being studied, the amount of "written" homework will vary.

TYPES OF HOME STUDY

The main areas of home study requiring student application are:

1. Revising work covered that day (e.g. making summaries).
2. Revising work done in previous weeks.
3. Preparing for tests and exams (**not** left to the last few days).
4. Learning formulae, rules etc (this is a continual process).
5. Doing extra reading (research) and note-taking to support information learnt in class.

HOW MUCH HOMEWORK AND HOME STUDY?

As a general rule the following amounts are the recommended amounts of homework **and** study that a student can be regularly expected to do to a **MINIMUM** each night.

- Year 7 – 1 hour
- Year 8 - 1½ hours
- Year 11 - 2½ - 3 hours
- Year 9 and 10 - 2 hours
- Year 12 - 3+ hours

ASSESSMENT POLICY

WHY SHOULD WE HAVE A POLICY?

The policy has been developed to be fair to all students and to ensure that students meet their obligations for completion of a course of study.

	Policy
Due dates	<ul style="list-style-type: none"> Students will be issued with Course Overviews and Assessment Planners each semester which will outline the course of study, all assessment items, due dates for drafts and their due date for submission
Exams and orals	<ul style="list-style-type: none"> Students must do these on the date set unless there are special circumstances. Parents of students who have legitimate reasons for missing an exam or oral need to contact the school BEFORE it is due. A medical certificate is required in the event of illness. Students who legitimately miss an exam or oral must consult with Faculty HOD immediately on their return and complete the assessment as soon as practicable after their return. If a student fails to sit a test/examination, without a legitimate reason e.g. truancy, loss of credit for the semester may result.
Assignments	<ul style="list-style-type: none"> Students will be issued with an assignment cover sheet that includes due date for draft/s, due date for handing in plus the criteria for marking the assessment piece. Teachers will keep an Assessment Monitoring Checklist which will monitor and record student progress during the assignment. Students should request a receipt when handing in the assignment. They must be able to produce the receipt if the submission of their assignment is queried.
Drafts	<ul style="list-style-type: none"> Students will be expected to submit at least one draft copy of the assessment item approximately one week before the due date. Students who fail to submit a draft will not have provided evidence for possible later assessment of the task. Consequently, students will be required to produce evidence of work either in the lesson the draft is due or in subsequent detentions before the due date. Parents will be notified by phone or letter that students have failed to submit a draft and the possible consequences of this.
Extensions of time for assignments	<ul style="list-style-type: none"> Students who are unable to submit an assignment on due date for legitimate reasons e.g. illness can apply for an extension. The extension must be applied for from the Deputy – Junior Secondary School BEFORE THE DUE DATE. (Forms are available from the Administration Office). The approved extension must be handed to the teacher before or on the due date. Provided the assignment is then submitted on time (as indicated on the extension) there will be no penalty incurred for the late submission.
Late or non-submission of work	<ul style="list-style-type: none"> Students not submitting an assignment on the due date without an approved extension will have a mark awarded based on the draft or evidence of work submitted on or before the due date. They will provisionally awarded a Level of Achievement based on that mark but will still be required to submit the assignment completed to a reasonable standard in order to receive credit for that semester. Immediately after the due date the class teacher will notify parents that the assignment has not been received and the consequences of this late submission Students still needing to submit the item of assessment to meet the course requirement for the semester will have approximately one week after the original one to submit the assignment. Failure to meet this new due date will result in Thursday detention and withdrawal from class to complete the assessment.

	<ul style="list-style-type: none"> • If the student still fails to submit the assessment item then parents will be informed in writing by the Deputy – Junior School that course requirements have not been met and the student will not receive credit for that semester.
Non-participation in assessment task	<ul style="list-style-type: none"> • If the student has provided no draft or evidence of work by the due date then the class teacher will provide the Faculty HOD with a documented record of monitoring and actions taken to circumvent non-submission of work. • Faculty HOD, in consultation with Deputy – Junior Schooling will then notify student and parent that the student will not receive credit for that semester.
Plagiarism	<ul style="list-style-type: none"> • Plagiarism is presenting someone else’s work as if you created and wrote it yourself. It is regarded as a form of cheating. • Depending on the extent of the plagiarism, part or all of an assignment may not be marked. Subsequently students may not receive credit for that semester • Plagiarism can take a number of forms: <ul style="list-style-type: none"> ○ Copying or paraphrasing entire or parts of another resource from other sources such as the internet or books without acknowledging the source or providing a reference. ○ Copying ideas or exact phrasing from another source (even if it is in combination with student’s own words) without acknowledging the source or providing a reference. ○ Copying or paraphrasing another student’s work in part or its entirety. ○ Copying from other group members and presenting the work as your own individual creation. ○ Contributing little or less to a group project and claiming an equal share of marks. ○ Collusion – students have exceeded an acceptable level of collaboration on an assignment with identical layout, mistakes, presentation or arguments.

BURNSIDE STATE HIGH SCHOOL EXPECTATIONS MATRIX

	Whole School	Classroom	School Grounds	To and From School/Off Campus
Care	<ul style="list-style-type: none"> • Treat property with respect. • Treat all members of the school community with respect. • Resolve conflicts and disagreements without physical or verbal aggression. • Make safe choices. • Keep hands, feet and objects to yourself. • Keep dangerous or banned items out of school. 	<ul style="list-style-type: none"> • Use equipment and materials correctly. • Follow the safety rules for each classroom. • Enter a room only when a teacher is present. • Look and listen whilst others are speaking. 	<ul style="list-style-type: none"> • Keep pathways and stairwells clear to allow movement. • Keep the area around you clean. • Report non-identified visitors on the school grounds to staff immediately. • Behave in a safe manner in the playground. • Play contact games under teacher supervision. 	<ul style="list-style-type: none"> • Show respect, courtesy and manners to others in the wider community. • Remain inside the school grounds from the time you arrive at school until the end of the school day. • Follow the directions of the lolly-pop person on duty. • Wear your uniform correctly and with pride.
Consideration	<ul style="list-style-type: none"> • Be polite to all members of the school community. • Treat all members of the school community with respect. • Use appropriate language at all times. • Use technology only as per Computer Use Agreement. 	<ul style="list-style-type: none"> • Allow the teachers to manage the learning environment. • Bring the correct equipment to class, including school diary. • Attend the class on time. • Ensure you meet all assessment deadlines 	<ul style="list-style-type: none"> • Use toilets appropriately. 	<ul style="list-style-type: none"> • Respect other road and footpath users. • Follow all traffic laws.
Co-operation	<ul style="list-style-type: none"> • Follow the directions and requests of school staff. • Speak politely and respectfully at all times. • Mobile phones and music devices are to be kept off and out of sight at all times. • Be in the right place at the right time. 	<ul style="list-style-type: none"> • Remove your hat when in a room. • Remain in the classroom unless otherwise directed by a teacher. • Participate your best in class activities. • Leave bags in the area designated by the teacher. 	<ul style="list-style-type: none"> • Follow canteen procedures. • Report injuries/incidents to staff immediately. 	<ul style="list-style-type: none"> • Follow all bus procedures. • If arriving late or leaving early remember to sign in and out. • Hand in skateboards to the administration block upon arrival at school.
