

Queensland Curriculum and Assessment Authority

VET Subjects

These subjects contain competency based vocational modules and may include “on the job” training

VET DISCLAIMER

“The school must have certain teachers and equipment to run the courses advertised in this section. If the school loses access to these resources, the school will attempt to provide students with alternative opportunities to complete the course and the related qualifications but it may incur a fee. The school retains the right to cancel the vocational component of the course if it is unable to meet requirements. Late enrolment in a VET course means that a training and assessment agreement is for the negotiated package of units, which will lead to a statement of attainment.”
