Burnside State High School Smaller – Smarter – Safer Vocational Education and Training

Vocational Education and Training or VET refers to education and training that focuses on delivering skills and knowledge required for a wide range of industries. It is a learning option for students in the senior phase of learning to gain exposure to VET qualifications while at school.

Industry Areas Available:

- Arts and Entertainment
- Business
- Industrial Technologies
- Aviation
- Sport, Fitness and Recreation
- Tourism and Hospitality
- Health and Community Services

What is VETiS?

A core element of the Queensland Government's Working Queensland jobs plan is ensuring Queenslanders have access to quality training programs that deliver effective skills to meet employment and business demands.

Vocational Education and Training in Schools (VETiS) supports this aim by delivery of nationally recognised qualifications to school students, providing them with the skills and knowledge required for specific industries. VETiS qualifications can be undertaken in Year 10, 11 and 12, and can count towards the Queensland Certificate of Education.

VETiS Options

There are a variety of options available to students to undertake VETiS at Burnside State High School:

- As part of their school studies, delivered and resourced by the school's Registered Training Organisation (RTO)
- Through fee-for-service arrangements where a parent/student pays for the qualification with an external RTO
- Enrolling in a qualification with an external RTO which is funded by the Department of Employment, Small Business and Training's VET investment budget.

Please be aware that students are only permitted to receive VET in Schools (VETiS) funding for ONE certificate course while enrolled at school. Fees will be dependent on the certificate chosen and the industry requirements. Not all VET courses qualify for VETiS funding and enrolment conditions apply.
